

**KSU Master of Science in Prosthetics and Orthotics Program**  
**Prerequisite Requirements Worksheet**  
*(effective beginning Fall 2022)*

One form of eligibility for admission to the Kennesaw State University (KSU) Master of Science in Prosthetics and Orthotics (MSPO) program is that all applicants must have completed prerequisite courses prior to MSPO program entrance. In order to assess your eligibility for the MSPO program and your prerequisite completion, the MSPO admissions committee has prepared this document which consists of two separate forms.

The first form is the **PREREQUISITE COURSE SUMMARY** form. It consists of a table that lists the General Prerequisite Headings in the left column and across the first row are details that must be completed for the course(s) you have taken that, in your opinion, meet the prerequisite criteria. For purposes of comparison, courses that are offered at KSU that meet these prerequisite criteria are listed. If you are uncertain if the courses you have taken are sufficient to meet the prerequisite criteria, please compare your course syllabus to the one(s) listed. Ultimately, the decision for prerequisite equivalency lies with the MSPO Admissions Committee. (NOTE: If you are a KSU student interested in applying to the MSPO program by taking the prerequisite courses listed on this form, please note that some of these courses may require prerequisites in order to enroll in them.)

The second form is the **PLAN OF PREREQUISITE COMPLETION** form. Because you may not have completed all of the required prerequisites at the time of your application

**PREREQUISITE COURSE SUMMARY** (See Instructions for Completing Equivalent Prerequisite Courses on This Form)

<b>GENERAL PREREQUISITE &amp; KSU Course Number (credits)</b>	<b>(A) Course # of Comparable Course</b>	<b>(B) School Abbreviation</b>	<b>(C) Term Completed</b>	<b>(D) Planned Term of Completion</b>
---	--	--	-----------------------------------	---

**PLAN OF PREREQUISITE COMPLETION**

The Kennesaw State University Master of Science in Prosthetics and Orthotics program requires that all pre-requisite coursework requirements be completed prior to entry into the program. If you have completed all prerequisites for the program, you do not need to complete this form.

In the event you do not have all prerequisites completed at the time of your application, please outline your plan for completion of the pre-requisite requirements prior to entry into the MSPO program in the Fall. This information is critical for applicants that apply to the program, but who have not yet completed all the required prerequisites at the time of application. If you do not have all prerequisites completed and do not provide a plan for completion of the prerequisites with your application, the Admissions Committee will not be able to review your application.

For the tables below, please list the courses in which you intend to enroll in order to complete the MSPO prerequisites.

**Fall Semester and Year**

Course Name and Number	Credits	College or University

**Spring Semester and Year**

Course Name and Number	Credits	College or University

**Summer**
